

The SVF L8

Our High Performance, Versatile Ball Valve

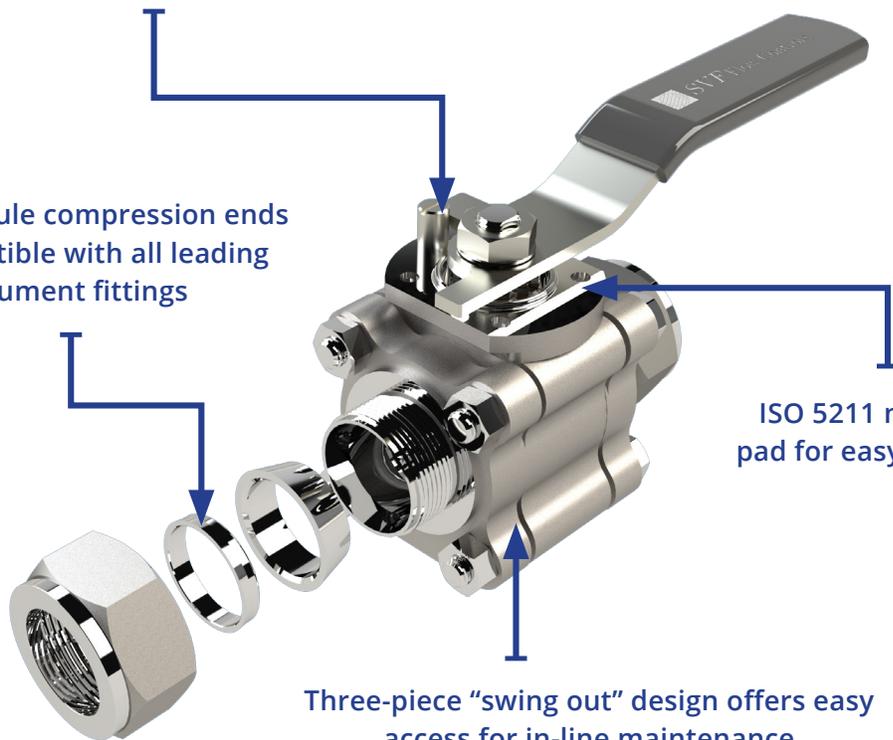

The SVF Series L8 Ball Valves are compression-ended valves designed to be compatible with all of the leading instrument fittings. In addition to an integral ISO mounting pad, this high-performance valve is available with a vast selection of seats and seals.

Live-loaded stem seal ensures seal-tight pressure containment even under thermal cycling

Double-Ferrule compression ends are compatible with all leading instrument fittings

ISO 5211 mounting pad for easy actuation

Three-piece "swing out" design offers easy access for in-line maintenance

READY FOR ACTION, PERFECT FOR CBD EXTRACTION

SB9

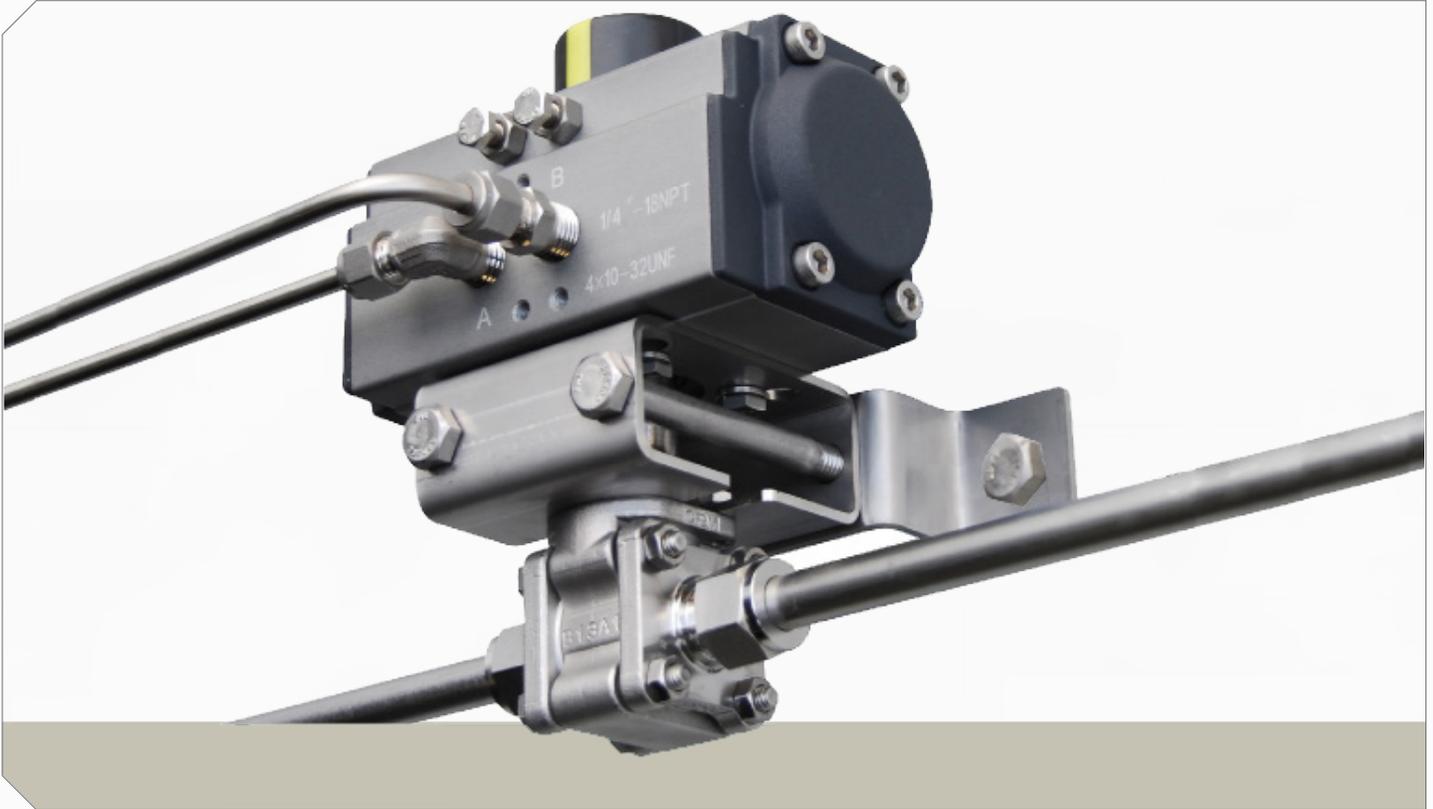

Low-pressure, low-temp, for hygienic food/bev applications

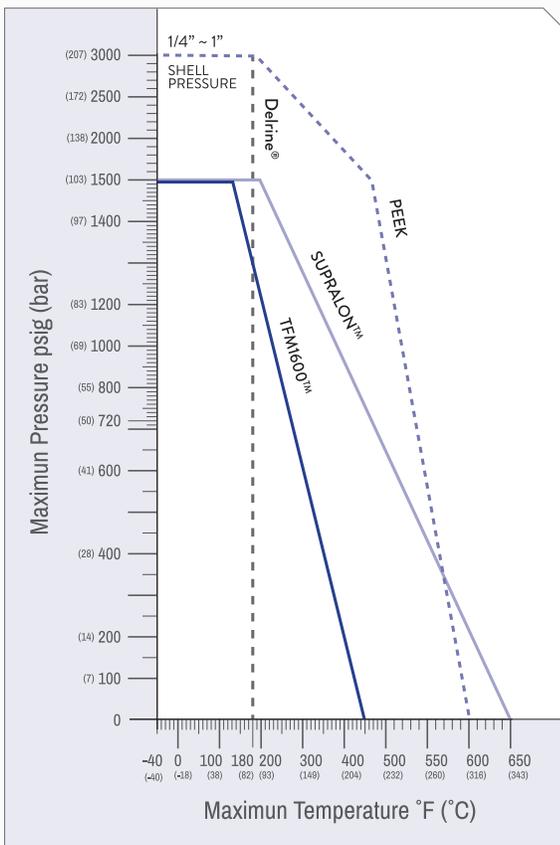

H7

High-pressure or supercritical applications

MADE TO HANDLE HEAT AND PRESSURE

L8 - PRESSURE/TEMPERATURE CHART

EVEN MORE FEATURES!

Customize the L8 to fit your needs perfectly!

- ▶ Engineered for quarter-turn actuation
- ▶ Stainless steel construction
- ▶ Compatible with Pneumatic and Electric actuators
- ▶ Optional vent porting
- ▶ Double ferrule
- ▶ No-weld installation

Standard seat material is TFM1600™.

Options are available and include: PEEK, Delrin® and SupraLon™.

Full range of control options to suit specific requirements
