

FOR IMMEDIATE RELEASE

## **SVF Flow Controls Expands Product Offering with Sure Seal® Line of High-Performance Butterfly Valves**

La Palma, CA – May 6, 2024--SVF Flow Controls, a leading provider of industrial valves and flow control products, is pleased to announce the expansion of its product lineup with the introduction of the Sure Seal® line of high-performance butterfly valves. This significant addition underscores SVF's commitment to delivering high-quality, reliable, and efficient flow control solutions to its customers across various industries.

The Sure Seal® high-performance butterfly valves are engineered for exceptional performance, designed to handle demanding applications with ease. These valves offer superior durability and reliability, making them ideal for industries such as oil and gas, chemical processing, water treatment, and power generation. The valves feature an innovative design that ensures excellent sealing and long service life, even in the most challenging environments.

"We are excited to bring the Sure Seal® line to our customers," said Jack McDonald, President, and CEO of SVF Flow Controls. "This new product line aligns perfectly with our vision of providing top-tier flow control solutions. The Sure Seal® valves are designed to meet and exceed industry standards, offering our customers peace of mind in their operations."

The Sure Seal® butterfly valves are available in a variety of sizes and materials to cater to diverse customer needs. The valves boast robust construction, enhanced corrosion resistance, and efficient performance, ensuring they stand up to the rigors of industrial applications. Additionally, the valves offer a wide range of customization options, enabling customers to select the best configuration for their specific requirements.

SVF Flow Controls is committed to delivering excellent customer service, and the introduction of the Sure Seal® line is a testament to this commitment. With a focus on quality, innovation, and customer satisfaction, SVF continues to be a trusted partner for customers requiring reliable flow control solutions.
